CSE2104 Offline-2

1. Define a structure which contains **id** (int), **name** (char array) and **cgpa** (double).
2. Declare an array of the defined structure.
3. Now sort the array in ascending order based on **cgpa** using **Quick Sort** algorithm.

Submit the **.cpp** file. Follow the naming convention **StudentID_Offline2.cpp**. For example: 180104072_Offline2.cpp.
